

Sports Premium Statement 2015-16

Funding Allocation

The government has provided Sports Premium funding for the academic year 2015-16 to provide additional and sustainable improvements to PE and sport for the benefit of all primary pupils and to encourage the development of healthy and active life styles. Allocations for the academic year 2015 to 2016 are calculated using the number of pupils in Years 1 to 6 as recorded in the January 2015 census. As we only had 1 Primary Pupil on roll in January 2015, our allocation is £500 for this academic year.

Use of Funding

We have used this allocation to support our Adventure Learning programme.

The Adventure Learning Schools approach provides a rich learning culture in which students not only meet and surpass high academic standards (especially in Literacy and Numeracy), but through the emphasis on adventure, increasing their competence as learners, developing their personality and creating increasingly effective learning environments for themselves as they move towards becoming citizens of our global world.

Adventure Learning Schools aim to create a network of schools where learning is not just enjoyable, but leads to genuine accomplishments, an appreciation of oneself, others and society. Learning occurs not just within classrooms but also in the external environment both wilderness and urban and is consistently infused by a spirit of adventure and enquiry.

This year students have taken part in a range of exciting activities including archery, skiing, climbing, swimming, horse-riding and bush craft.

Impact Statement

Students have gained understanding and gained experience of participating in a range of sporting activities. Students have gained confidence in dealing with challenging situations and have improved in co-ordination, balance and in their ability to perform and try new things.
